September 2021

Total Web Traffic – ALL PROPERTIES: 33,669,147 sessions (-1% from past month)

Highlights:

- Web Traffic at New High:** Overall web traffic approached the previous high of 34 million set last month in one less day (30 days in September versus 31 in August), maintaining the highest traffic levels ever recorded.

Web Traffic in Sessions*: The total sessions and users shown at the top of the “Web Traffic in Sessions” graph for all USCIS properties represents how many sessions there were to either the USCIS.gov website, E-Verify.gov (tracking for E-Verify.gov began in Sept. 2018), myUSCIS (authenticated and unauthenticated sessions counted separately) and CRIS Tools. Note that the separate sites are not simply added together to reach a correct “TOTAL” traffic number because there is overlap. For example, in a single session, some people visit two or even all three of the domains. Additionally, on the Spanish USCIS.gov website, every session is considered a session on USCIS.gov because Spanish sessions are delineated by the /es, but they are still in the same domain as USCIS.gov.
